LEGISLATIVE ASSEMBLY.

FIFTEENTH DAY.

Friday, 9th November 1951.

The Legislative Assembly met in the Assembly Hall, Old Public Offices, Bangalore, at Five Minutes past One of the Clock.

Mr. Speaker (The Hon'ble Sri V. Venkatappa) in the Chair.

QUESTIONS AND ANSWERS.

Mr. SPEAKER (The Hon'ble Sri V. Venkatappa).—The questions relating to the Hon'ble Chief Minister regarding Food will be answered by the Hon'ble Sri T. Mariappa, Home Minister.

Particulars of purchase and sale prices of paddy and incidental charges.

Q.—242. **Sri H. M. CHANNABASAPPA** (Mysore District—General).—

Will the Government be pleased to state :—

(*a*) the quantity of fine, medium and coarse paddy locally purchased by Government during 1948-49, 1949-50 and 1950-51 and the rates at which they are purchased ;

(*b*) the average yield of rice fixed per palla for each of these varieties ;

(*c*) the average cost involved in transport, hulling, etc., for one palla of paddy and bagging the resultant rice including the incidental charges such as handling, etc. ;

(*d*) the average cost price per palla of each variety of rice at the mill-point including handling, hulling and other incidental charges ;

(*e*) the selling prices of fine, medium and coarse varieties of rice in the State ;

(*f*) the average cost of transport per palla of rice to the destination point and the margin of profit Government are making per palla of rice (details for working out the margin of profit may be given) ;

(*g*) the total local rice sold during 1948-49, 1949-50 and 1950-51 ?

A.—**The Hon'ble Sri T. MARIAPPA** (Home Minister).—

(*a*) to (*g*) Information is being collected.

Sri H. M. CHANNABASAPPA.—May I know from whom the information is being collected ?

The Hon'ble Sri T. MARIAPPA.—From the local officers.

Sri H. M. CHANNABASAPPA.—Are not the accounts for 1948-49, 1949-50 and 1950-51 over ?

The Hon'ble Sri T. MARIAPPA.—Accounts will be over. But the question put is about the quantities of fine, medium and coarse paddy locally purchased by Government during 1948-49, 1949-50 and 1950-51 and the rates at which they were purchased. From several places we have to call for information. We have not got the consolidated accounts.

Sri H. M. CHANNABASAPPA.—I would like to know from the Hon'ble Minister if a statement of the quantities of the several types of paddy purchased by the Government of Mysore during these three years is not maintained by the Director of Food Supplies ?

The Hon'ble Sri T. MARIAPPA.—These details are not available even with the Director.

Sri H. M. CHANNABASAPPA.—Then when will the Government be in a position to furnish this information ?

The Hon'ble Sri T. MARIAPPA.—It takes time. It requires practically additional staff to compile the information required. I cannot therefore say

(THE HON'BLE SRI T. MARIAPPA)

when exactly we will be able to furnish the information. But, anyhow, we will try to give it as soon as possible.

Sri H. M. CHANNABASAPPA.—I would like to know if the Government could tell me whether this business of purchasing paddy and selling rice is a profitable or a losing concern?

The Hon'ble Sri T. MARIAPPA.—As the Hon'ble Member is aware, this is not a profitable concern at all.

Sri H. M. CHANNABASAPPA.—Are the Government aware that I made a statement during the debate on the Public Accounts Committee report that the Government have been making profit to the tune of about Rs. 68 lakhs in this year?

The Hon'ble Sri T. MARIAPPA.—Because I was present, I heard the statement of the Hon'ble Member.

Sri H. M. CHANNABASAPPA.—In the answer it is stated that information about the selling prices of fine, medium and coarse varieties of rice in the State is being collected. Are the Government aware that these prices are prescribed in the Government Order itself?

The Hon'ble Sri T. MARIAPPA.—It was considered not worthwhile giving isolated answer; and moreover we have abolished the distinction between fine, medium and coarse varieties. There are only two varieties now instead of three as before and therefore from the dates on which the distinction was abolished, information is being collected.

Sri H. M. CHANNABASAPPA.—I would like to know if this information cannot be obtained from the local officer?

The Hon'ble Sri T. MARIAPPA.—That particular officer can furnish the information required, but it could not be got for all the three items because only two varieties are now being sold.

Sri H. M. CHANNABASAPPA.—Can the Government give the information about the selling prices prescribed by them in respect of at least these two varieties of rice by obtaining it from the Amildar or the Shekdar?

The Hon'ble Sri T. MARIAPPA.—That I can get and give the Hon'ble Member.

Sri H. M. CHANNABASAPPA.—My question is that, according to accepted conventions, all answers which the Ministers could reasonably give, they must give us. I am not compelling. But this information was available with the Hon'ble Minister himself. If I can only commend his memory, the Hon'ble Minister could say this from his memory itself.

The Hon'ble Sri T. MARIAPPA.—Sir, I do not want to risk. But I am pretty certain that one variety is being sold at 2 seers per rupee because for the last one year we have changed the selling prices. Moreover this question is vague. It may refer to the current prices, or the prices of these two varieties ever since the third variety was abolished. Therefore it has got to be looked up and the information has got to be compiled. That will take time. I can collect the information from the Director of Food Supplies and give it, if he wants.

Sri H. M. CHANNABASAPPA.—My question is why the Government have not furnished this information?

The Hon'ble Sri T. MARIAPPA.—I have already answered that the main answers are to be collected. Therefore giving isolated answers perhaps would not serve the purpose.

Sri H. M. CHANNABASAPPA.—I agree to that, if information is being called for with regard to (*a*). But with regard to (*b*), Government have issued an order determining the *iluvari* for each type of paddy. Is it not?

The Hon'ble Sri T. MARIAPPA.—We have not determined the average for the entire State. It varies from zone to sone, from district to district and from variety to variety.

Sri H. M. CHANNABASAPPA.—I would like to know whether Government have not prescribed the *iluvari* for the various types of paddy and for various places?

The Hon'ble Sri T. MARIAPPA.—It is true that we have fixed *iluvaries* for certain types of paddy for certain places.

Sri H. M. CHANNABASAPPA.—Is the information regarding the average to be furnished by the Amildar or the Shekdar?

The Hon'ble Sri T. MARIAPPA.—It has to be got from various mills in the State. We have written to the Deputy Commissioners in the matter.

Sri H. M. CHANNABASAPPA.—Have not the Government prescribed the hulling charges and handling charges per palla of paddy and also other incidental charges by a Government Order?

The Hon'ble Sri T. MARIAPPA.—Sir, I want that questions for eliciting information only be put. But, the Hon'ble Member is cross-examining me.

Sri H. M. CHANNABASAPPA.—In reply to a supplementary question, the Hon'ble Minister was pleased to say that the inform t on was not available. I want to elicit from the Government whether these prices, etc., are not prescribed in the Government Order.

The Hon'ble Sri T. MARIAPPA—Yes, there are various Government Orders prescribing these.

Sri H. M. CHANNABASAPPA.—When the hulling charges and the transport charges per mile and the handling charges have been fixed by a Government Order, has the information about the average to be got from the Shekdar or the Amildar?

The Hon'ble Sri T. MARIAPPA.—That is not a proper supplementary question, Sir.

Sri H. M. CHANNABASAPPA.—It is for the Hon'ble Speaker to say so.

Mr. SPEAKER.—What is the question?

Sri H. M. CHANNABASAPPA.—My question is, when the handling charges, hulling charges and other incidental charges per palla of paddy are fixed by Government, has the information regarding the average to be obtained from the local officers, Amildar or the Shekdar or has it to be furnished from the Central Office?

Mr. SPEAKER.—The Hon'ble Minister has already said that he wanted to give the information in full and not piecemeal.

Sri H. M. CHANNABASAPPA.—My opinion is that except the first item about the quantity of fine, medium and coarse paddy, information for which has to be called from various places, answers for all others could have been obtained here alone, either in the Secretariat or from the Director of Food Supplies. So the argument that information could not be given for want of time for getting the same from local officers does not hold water.

Sri M. GOVINDA REDDY (Chitaldrug District—General).—Could not the information about the quantity of paddy procured during these years be given?

The Hon'ble Sri T. MARIAPPA.—I could have given the total quantity because it has been given on a number of occasions for different questions. Here details regarding fine, medium and coarse paddy have been asked. In fact for the last one year or so, if my memory is correct, we have abolished the distinction between coarse and medium. There are only two varieties now details regarding which have to be obtained.

Sri M. GOVINDA REDDY.—Are accounts not being classified according to fine, medium and coarse paddy?

The Hon'ble Sri T. MARIAPPA.—We have only two varieties of paddy now.

Sri M. GOVINDA REDDY.—For 1948-49 and 1949-50 were not accounts classified as per the varieties of paddy?

The Hon'ble Sri T. MARIAPPA.—I think in 1948-49 we had three varieties of paddy. Subsequently that distinction was abolished.

Sri M. GOVINDA REDDY.—Are accounts for 1948-49 and 1949-50 audited?

The Hon'ble Sri T. MARIAPPA.—I think so.

Sri M. GOVINDA REDDY.—When they are audited, does not the Hon'ble Minister think that they would have been classified, rates would have been settled and checked according to the classified manner?

The Hon'ble Sri T. MARIAPPA.—It is a question of knowing exactly what quantities of fine, medium and coarse paddy were locally procured. Therefore these figures have to be compiled from various places.

Sri M. GOVINDA REDDY.—When the accounts are audited naturally they would have been compiled for the purpose of audit and so these figures must be ready with the Government.

The Hon'ble Sri T. MARIAPPA.—These figures are not ready with the Government. Otherwise we would not have lost anything in giving these figures.

Sri M. GOVINDA REDDY.—Am I to understand that the audit in respect of these years is not done?

The Hon'ble Sri T. MARIAPPA.—I think that audit, at any rate for 1948-49, has been done.

Sri M. GOVINDA REDDY.—For 1949-50?

The Hon'ble Sri T. MARIAPPA.—Even for 1949-50.

Sri M. GOVINDA REDDY.—I want to know what the difficulty for the Government was to give these figures if the audit has been completed.

The Hon'ble Sri T. MARIAPPA.—I will enquire what exactly was the difficulty in not furnishing the details.

Sri M. GOVINDA REDDY.—Are the Government calling for returns from various districts in respect of the quantities procured?

The Hon'ble Sri T. MARIAPPA.—We do not usually call for returns. In fact whenever questions are put, we get the answers from the Director of Food Supplies immediately.

Sri M. GOVINDA REDDY.—Are not procurement returns submitted to Government from districts?

The Hon'ble Sri T. MARIAPPA.—The Director of Food Supplies submits the returns.

Sri M. GOVINDA REDDY.—Are Government receiving these returns year by year or month by month?

The Hon'ble Sri T. MARIAPPA.—Whenever we need these figures we get them.

Sri M. GOVINDA REDDY.—Am I to understand that there is no regular method of the Director of Food Supplies sending returns to the Government?

The Hon'ble Sri T. MARIAPPA.—There is a method. But the question is about collecting statistics under three heads.

Sri M. GOVINDA REDDY.—Is the difficulty due to the Director of Food Supplies not submitting the returns in the classified manner?

The Hon'ble Sri T. MARIAPPA.—This is a huge affair. In 1948-49, 1949-50 and 1950-51 the figures for the three varieties of paddy will be of the order of 16 to 17 lakhs.

Sri M. GOVINDA REDDY.—When the Government receive these returns, do not these returns give information regarding the quantity purchased, whether it is fine or medium, the price paid for it, etc?

The Hon'ble Sri T. MARIAPPA.—No. We simply receive a return showing the procurement in each district and the total quantity of paddy and nothing about even the varieties of paddy.

Sri M. GOVINDA REDDY.—Would it not be better that the Director of Food Supplies sends the returns in the classified manner to Government so that it may save trouble for the Government again to reclassify for statistical purposes and for knowing the position?

The Hon'ble Sri T. MARIAPPA.—I will have that question examined.

Sri G. A. ACHARYA (Bangalore District—General).—Is the quantity procured mentioned in the returns in pallas or in any other measurement?

The Hon'ble Sri T. MARIAPPA.—Only in pallas. Not even the varieties are mentioned.

Sri G. A. ACHARYA.—Do the Government think that it is the right method of getting the returns?

The Hon'ble Sri T. MARIAPPA.—It is only to know the progress of procurement that these returns are sent. The Director of Food Supplies and the respective district officers maintain the figures for different varieties of paddy.
